Comfort SERIES

Carrier's Highly Efficient Fan Coils

Efficiency

Carrier's Comfort™ Series fan coils are designed to improve the airflow in your home and provide comfortable heating and cooling when you need it most. Matching your system with the proper Carrier fan coil will also enhance the heat transferring process so you can enjoy maximum comfort and energy savings.

- Designed-in parts help to maximize efficiency while minimizing your utility costs.
- The grooved copper tubing and aluminum fins help improve heat transfer and increase energy efficiency.

Comfort™ SERIES

Things to Consider Before You Buy

Puron® Refrigerant

Puron® refrigerant is environmentally sound and won't deplete the ozone layer. Carrier introduced Puron® refrigerant a full six years ahead of the competition, paving the way for the future. The Clean Air Act of 1990 prohibits the production of HCFC-based air conditioners and heat pumps by 2010, and bans Freon®-22* production by 2020. As Freon® production reduces, its cost is predicted to increase. Freon®-12 in

the automotive industry increased by a whopping 800% in a short seven years!

Ensure your cooling costs by investing in systems with Puron® refrigerant — environmentally sound, efficient and dependable refrigerant designed for the future. Carrier's Comfort™ Series

FX4 fan coil allows you to maximize your system's efficiency while making an environmentally sound choice.

Comfort

Carrier specializes in creating a customized home comfort system tailored to your needs with our broad selection of residential heating and cooling products. Your Carrier dealer can help you choose the best system for your home, including Carrier-exclusive features that further enhance your indoor environment.

- Carrier's Comfort™ Series fan coils are designed to deliver exceptional air quality and comfort.
- Comfort™ Series fan coils are equipped with high efficiency fan motors to enhance the Carrier System's SEER or Seasonal Energy Efficiency Ratio.

Reliability

At Carrier, your comfort is our business. That's why we have one of the most extensive product research and development facilities in the world. Within each step of the development process, from the design phase to finished products, we test each and every product to exceed industry standard requirements. You can count on Carrier's Comfort™ Series fan coils for years of dependable indoor comfort.

Technology

Puron® refrigerant – environmentally sound, replacing Freon®-22* and won't deplete the ozone layer.

- 1 Foil-faced insulation** – helps isolate sound, reduces bacterial growth and features an easy-to-clean surface.
- 2 Airtight cabinets** – keep air inside and direct it within your ductwork for greater efficiency.
- 3 Permanent washable filter** – can be cleaned and reinstalled for economic air filtration.
- 4 Enhanced drain pan design** – allows complete drainage to improve indoor air quality.
- 5 Electric resistance heaters** – maintain heat consistency during extremely cold temperatures.
- 6 Thermostatic expansion valve** – precisely controls refrigerant distribution for improved comfort and cost-savings.

Turn to the Experts

Willis Carrier invented air conditioning in 1902. Over 100 years later, we're proud to say Carrier systems are trusted in more homes than any other brand.

Carrier continues to be on the forefront of innovative engineering and unsurpassed standards of excellence. So when choosing a home comfort system, you'll want to turn to the experts. Your Carrier dealer will evaluate your home, such as window placement and size, ductwork, other structural specifics and lifestyle to provide a customized indoor comfort plan designed specifically for you. And when you have an expert helping you make an educated decision, you're going to feel more comfortable.
